

THE
GREEN CHAIR
PROJECT

Healthy Home Packs

A neighborhood drive for The Green Chair Project

Let's join together to support The Green Chair Project by providing home essentials to families in Wake County during this crisis. Clean surfaces in our homes are so important right now as we try to keep our community healthy. Sadly, cleaning supplies are not part of assistance programs and families on fixed income budgets will forgo these items due to lack of resources.

Will you help collect items for a Healthy Home Pack?

A Healthy Home Pack should include the following items in a NEW cleaning bucket or small bathroom trash can.

- 1 bottle of spray window cleaner
- 1 bottle of spray all-purpose disinfecting cleaner
- 1 bottle of dishwashing detergent
- 1 package of sponges
- 1 box of large (13 gal.) kitchen trash bags
- 1 roll of paper towels

Optional add on items if available:

- hand sanitizer
- toilet paper
- liquid hand soap

*return your items to your neighborhood captain

Thank you for supporting The Green Chair Project's efforts to assist families in need during this crisis!
